IBT provides poor representation for the millions UAL Techs pay

Teamsters Local 781 Chicago

Taking your dues money to pay their appointed salaries, pension, health, and welfare

A quick review from the [2014 LM2](#) data found IBT 781 took in a total of approximately 2 million in dues. With other activity, the total was 2.5 million.

UAL Techs contributed about \$865,000 of that. (\$78 Dues x 12 x 925 UAL Technicians)

UAL Techs contributed about 43% of all dues collected for 781 (865K / 2000K).

Over 2.3 million was expensed away on salaries, pension, and Insurance benefits. Organizing costs, payments, fees, salaries, printing, etc., rents, payments to the IBT national.

That's 94 % of the total collected. The big hits, there are many questionable expenses in the Tens of thousands but let's stick with the biggies.

\$ 572,000 for [Officer disbursements](#): President, Vice President, the trustees, whom we all see very little of. Also included is a \$ 50,000 salary for a person listed as an organizer.

\$ 110,000 for reimbursement of organizing expense. (For what exactly?)

\$ 311,000 for [Officer Pension, Life, and Health Insurance](#). Things YOU pay for NOW!!!!

\$ 197,000 pay for [Administrative Staff](#) to run the local.

Right away we see that it consumes nearly \$ 1.2 million yearly. That 100% of what local 781 Techs pay in dues yearly. What benefits are we seeing for all we pay?

What did you receive for your dues? A concessionary contract, higher medical costs, and poor representation. We pay millions and get third rate union representation.

It's time to have a union where 100% of our dues goes to represent and defend our Technicians. Visit us at WWW.ALTAUNITED.COM Sign your ALTA election card today.
