

AIR LINE TECHNICIANS
ASSOCIATION

Ten thousand United Technicians working together the UAL-MEC

There are nearly ten thousand Technicians at United Airlines we are one of the largest Airline Technician union groups in America second only to our friends at American Airlines. We deserve to have a union that we control. **The ALTA MEC is similar to the ALPA Pilots MEC.** The MEC builds unity and solidarity within the Union.

MEC- Master Executive Council at United Airlines. The MEC is comprised of the Elected Presidents from each of our 10 projected locals, this will ensure every Technician has a voice in their union through the local. **How much stronger will our Union and our contracts be when the membership has a voice and are professionally represented on a daily basis and in open negotiations?**

- 1. EWR – Newark
- 2. IAD – Washington
- 3. MCO-Orlando
- 4. ORD-Chicago
- 5. CLE-Cleveland

- 6. DEN-Denver
- 7. IAH-Houston
- 8. SFO- San Francisco
- 9. HNL-Honolulu
- 10. LAX- Los Angeles

The Elected Local Presidents (MEC) will work together to make sure all technicians system wide are receiving the same information and are being organized accordingly as well as making sure their respective locals concerns are heard and addressed system wide. **Strong leadership through clear and concise communication system wide.**

This is where unity and solidarity are built, working together to ensure our contract is enforced equally and that our members’ rights are protected. **We will then truly be United Technicians.**

ALTA Representing the Technicians who help maintain the aircraft, ground equipment, jet ways and maintenance bases at United Airlines. We deserve a union that will be there for us every day to promote the work we do. **Take the time to sign your card today, see your local organizer.**
