## **United Technicians file Opposition briefs to Teamsters and United in Pension lawsuit**

To all United Technicians

**June 21, 2019 United Technicians filed opposition briefs in Federal Court** against the Teamsters union and United Airlines motions filed in March to dismiss our case.

**6-21-2019 - [United Technicians Opposition to UAL Motion to Dismiss](#)**

**Read the briefs filed by our United Technicians.** The case involves the enforcement of LOA 05-03M that provides to every UAL Technician the RIGHT TO VOTE to choose CARP or a comparable plan in 2010 before the merger with Continental Airlines.

**The Teamsters denied that right to United Technicians** and we went 6 years without a single increase in pension benefits **while the IAM Ramp and Stores Pension went up 53%** and the **United Airlines Pilots 401k went up 160%**.

**The Teamsters failed in their #1 Promise to get United Technicians a Pension.** Now our Technicians are fighting the IBT union in Federal Court to enforce **LOA 05-03M**.

**Read [LOA 05-03M](#)** - negotiated by UAL Technicians in 2005 during 1113 Bankruptcy Negotiations to provide increased pension benefits to every United Technician at United Airlines. **6 Years of additional CARP Pension Benefits that is what it means to you.**

**If you were denied the right to file a grievance over this same issue**, your rights were likely violated by the Teamsters union and you can help in the fight.
