| 1 | II. JURISDICTION |
|----|---|
| 2 | |
| 3 | My case belongs in federal court, under federal question jurisdiction because it involves a |
| 4 | federal law or right. The Railway Labor Act and a collective bargaining agreement |
| 5 | negotiated for airline employees under the Railway Labor Act. |
| 6 | |
| 7 | III. VENUE |
| 8 | |
| 9 | Venue is appropriate in the Court because a substantial part of the events I am suing |
| 10 | about happened in this district. A substantial part of the property I am suing about is |
| 11 | located in this district. At least one defendant is located in this District and any other |
| 12 | defendants are located in California. |
| 13 | |
| 14 | |
| 15 | IV. INTRADISTRICT ASSIGNMENT |
| 16 | Because this lawsuit arose in San Mateo County, it should be assigned to the San |
| 17 | Francisco or Oakland Division of this court. |

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 5 of 74

| 1 | | V. STATEMENT OF FACTS |
|----|----|--|
| 2 | | |
| 3 | 1. | This complaint is the second federal complaint filed against the Teamsters Union covering |
| 4 | | the United Technicians Industry Reset Calculation. The previous case 4:20-CV-05442- |
| 5 | | DMR was filed on August 4, 2020, covering the 2018 Industry Reset calculation and the |
| 6 | | failure of the Teamsters Union to provide the Industry Reset Calculation as outlined in the |
| 7 | | CBA Exhibit A of LOA #29 and also process a grievance through the steps outlined in the United Airlines Technicians'' Collective Bargaining Agreement. |
| 8 | | Onted Annues rechinerans Concerve Darganning Agreement. |
| 9 | 2. | In complaint 4:20-CV-05442-DMR the Teamsters union motioned to dismiss and argued |
| 10 | | a 6-month statute of limitations of the complaint filed in federal court. I filed the |
| 11 | | complaint within 6 months of receiving a grievance closeout letter from the Teamsters |
| 12 | | SFO LAX grievance committee. The Teamsters union attorneys argued that the 6-month |
| 13 | | statute of limitations began on the day the I was notified in an email that the grievance |
| 14 | | would be closed and not on the actual date the grievance close out letter was received two |
| 15 | | weeks later. |
| 16 | 3. | In the complaint before the court today the Teamsters union closed out my grievance |
| 17 | 5. | citing no merit on January 13,2021 and then reopened it nearly a month later with no |
| 18 | | explanation. There is no process outlined in the CBA to reopen a closed grievance. The |
| 19 | | union grievance committee then scheduled a 2 nd step hearing in March of 2021. During the |
| 20 | | 2 nd Step hearing the Teamsters union reps made no attempt to question the accuracy of the |
| 21 | | 2020 Industry Reset that had resulted in the United Technicians Wage Scales moving from |
| 22 | | \$1.70 an hour below American Airlines technicians in 2016 to a staggering \$4.00 to |
| 23 | | \$15.00 an hour below American Airlines technicians in 2020. Nearly 3 weeks after the |
| 24 | | hearing the Teamsters union closed out my grievance again citing no merit without my |
| 25 | | knowledge or consent. |
| 26 | | |
| 27 | | |
| 28 | | |
| | | PLAINTIFF'S AMENDED COMPLAINT – CASE NO: 3:21-CV-05346-AGT 5 |

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 6 of 74

4. On December 6, 2016, United Technicians Class and Craft narrowly ratified a new
 collective bargaining agreement, that included a letter of agreement #29 "Industry Reset".
 This Industry Reset was described to United Technicians as a formula that would ensure
 the sum value of United Technicians contract would remain 2% above the average of the
 Wages and Benefits of American Airlines and Delta Airlines Technicians. This 2%
 calculation as described in the Industry Reset would be the basis for any future raises of
 United Technicians.

5. The calculation or "Cost Model" is found in LOA #29 Industry Reset and is listed as
Exhibit A. When this LOA was presented to the United Technicians in the fall of 2016,
Dan Akins the author of the calculation and economic advisor for the Teamsters stated
that the United contract was 5.8% above the average of the Delta and American
Technicians' contracts. Additionally, Mr. Akins stated that the non-Pay elements of the
proposed new contract were \$1.02 above the American/Delta Technicians average.

14

15

16

17

18

19

6. In a video put out by the Teamsters to sell the Tentative Agreement Dan Akins stated at the 20:20 minute point in the video that the "contract value" of the United Technicians contract would be 2% above the average of American and Delta Airlines technicians, and if it not United technicians would get an adjustment to our Base hourly rates. Dan Akins also stated in the video that the model was set and would not change, additionally he stated that the inputs were clear and publicly available.

- 20 (Exhibit #1 2016 IBT UAL Industry Reset)
- 21

7. There were 6 components identified in the 2016 Industry Reset, they are listed below with
their hourly value in 2016. They can be divided into two groups Pay and Non-Pay
elements. Pay All in Wages and \$1.20 VEBA are considered pay items. Time off,
Medical, Retirement Contributions, Profit Sharing and Scope are considered non-Pay
elements. The Non-Pay element values represent the value in hourly wages above or
below the American and Delta Technicians average. In 2016 the total value of the non-pay
values was \$1.02.

28

PLAINTIFF'S AMENDED COMPLAINT - CASE NO: 3:21-CV-05346-AGT

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 7 of 74

| 1 | | 1. Pay - All in Wages \$47.31 including \$1.20 VEBA = \$48.51 (*Weighted avg |
|----|----------|---|
| 2 | | \$48.43) |
| 3 | [| Non-pay Elements below totaling the equivalent of \$1.02 per hour. |
| 4 | | |
| 5 | | 2. Time off \$1.56 – Annual Vacation, sick time and Holiday hours |
| 6 | | 3. Medical .11 cents |
| 7 | | 4. Retirement Contributions .47 cents 5. Profit Sharing – minus \$1.01 |
| 8 | | 5. Profit Sharing – minus \$1.01 5. Scope – minus .12 cents |
| 9 | • | s. Scope – minus .12 cents |
| 10 | | |
| | | The 2020 United Technicians Industry Reset |
| 11 | | lovember 2020 the Teamsters announced a 7.06% pay increase for United Technician's |
| 12 | | or the 2020 Industry Reset calculation. This pay increase was due in part to the American |
| 13 | | irlines Technicians CBA ratified in March of 2020 and the wage increases and profit |
| 14 | sl | haring gained by Delta Technicians. |
| 15 | . | |
| 16 | | When the CBA was ratified in December 2016 every United Technician made a \$1.70 or |
| 17 | | % average less on every step of the wage rate scale when compared to their peers at |
| 18 | | merican Airlines. After the 2020 Industry Reset, United Technicians fell further behind |
| 19 | | heir peers at American. The range in pay disparity varied from dramatically from \$4 to |
| | | 15 dollars per hour or 10% to 35%. United Technicians were paid up to 35% less than |
| 20 | | neir peers at American Airlines. The Wage gap between United to American Airlines |
| 21 | g | rew from an average of 6% in 2016 to 22% in 2020. |
| 22 | 10.7 | |
| 23 | | n the fifth year of the Technician Wage Scale the disparity between a United Technicians |
| 24 | | ase Wage to American Airlines was \$14.98 per hour. In 2021 that margin has now |
| 25 | g | rown to a staggering \$15.94 per hour. |
| 26 | | |
| 27 | | |
| 28 | | |
| | | PLAINTIFF'S AMENDED COMPLAINT – CASE NO: 3:21-CV-05346-AGT |
| | | _ |

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 8 of 74

11. United Technicians requested what was described by the Teamsters union as "publicly
 available" information outlined in the LOA #29 Reset Model of their contract for the new
 pay raise. United Technicians questioned how they could have fallen even further behind?
 After a quick review of the Wage Scales at American Airlines, United Technicians noticed
 that the even with the Teamsters Industry Reset 7.06% pay increase their pay had gone
 from \$1.70 behind American Airlines in 2016 to \$4.00 to \$15.00 dollars an hour behind
 American Airlines in 2020.

12. The Company responded on December 15th, 2020, Thomas Reardon the Managing
 Director of Labor Relations stated that the information related to the Industry Reset
 Calculation is company confidential and proprietary. No information on the 2020 Industry
 Reset would be provided to the United employees to determine that their pay was 2%
 above the Delta and American Airlines contract average value.

13

13. The Union's response came on December 16th, 2020, by Teamsters Airline Division Rep 14 Vincent Graziano. The information related to the Industry Reset Calculation is company 15 confidential and proprietary. No one in the Teamsters Union, Officers or Representatives 16 has seen or reviewed the calculation that resulted in only a 7.06% raise for United 17 Technicians. The only people who had knowledge of the 2020 Industry Reset calculation 18 were Cheiron Pension Actuary Peter Hardcastle and Dan Akins, the author of the Industry 19 Reset. The formula is in the hands of the company and will remain there. Teamsters Rep Vinnie Graziano stated that the calculation would not be provided to the United union 20 membership. 21

22

14. These actions by the union were in complete contradiction to the statements made by Dan
 Akins on video in 2016 where he described this information as "publicly available
 information" and statements made by Vinnie Graziano in 2018, and SFO/LAX Teamsters
 Business Agents Javier Lectora and Mark DesAngles who also described the information
 in the Cost Model as "publicly available information".

27

28

PLAINTIFF'S AMENDED COMPLAINT - CASE NO: 3:21-CV-05346-AGT

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 9 of 74

- 15. United Technicians Industry Reset contract language states that their Base Wage Rate will
 be increased to a level where the value of the United Technicians contract would be 2%
 above the average of their peers at Delta and American Airlines.
- 16. There is no possible way for United Technicians to determine that their hourly wage rate
 is the correct amount to ensure the value of their CBA is 2% above the AA/DL average,
 without reviewing the calculation in Exhibit A of LOA #29 Industry Reset

17. The Collective Bargaining Agreement is a contract between the Employees and United
 Airlines not the Teamsters Union. The Teamsters union is a hired agent paid by the
 membership at United Airlines and are a third party to the contract as their representative.
 Should the Teamsters union be decertified as the representatives for the United
 Technicians and Related, the contract will remain unchanged and will always belong to
 the United Technicians and Related. United Technicians and Related should always have
 access to LOA #29 Exhibit A. (Exhibit #2 LOA #29 Industry Reset)

- 15
 18. The employees at United Airlines paid for the negotiations and are the party covered by
 the negotiated agreement. Every technician and member of the United Mechanics Class
 and Craft at United is a party to and entitled to the information covered in Exhibit A. No
 employee at United Airlines can reasonably determine by looking at their hourly pay rate
 after the 2020 Reset, if the value of their contract is 2% above the Delta and American
 Airlines average as outlined in the contract and Exhibit A.
- November 11, 2020, Airline Division Rep Vinnie Graziano stated in the Teamsters
 Dispatch "I can report today that the model worked as designed and each of you will be
- 23 getting a 7.06% increase above the 1% Basic Hourly Rate in Appendix A of Article 15.
- *The additional increase at the top of the scale Technician Rate is approximately* 24
- \$2.94/hour. I would like to thank our economists Dan Akins and Peter Hardcastle for
- 25 *their work ensuring that the formula was applied correctly*". However, no numbers were
- ²⁶ presented from the Delta and American average hourly wage as done in 2016.
- 27

4

28

PLAINTIFF'S AMENDED COMPLAINT – CASE NO: 3:21-CV-05346-AGT

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 10 of 74

19. The value of Non-Pay Elements was not presented as done in 2016, no publicly available
 information was presented to validate or establish that 7.06% put United Technicians 2%
 above the Delta/American Average. On December 14, 2020, I filed my first LOA #29
 grievance (2020-986-SFO-UA-142). Based on the only publicly available information
 available to me Delta Airlines Technicians Pay and Profit Sharing for 2020 was equivalent
 to \$60.80 cents an hour. American Airlines Technicians Pay and Profit Sharing for 2020
 was equivalent to \$56.80.

20. Based on the only publicly available information available to United technicians the pay
and profit sharing for Delta and American technicians average plus 2% is over \$59.97.
United Technicians Top Scale pay rate was set at \$52.14, which was \$7.83 below the
hourly average of the Delta and American Technicians Average plus 2%. United Airlines
is in breach of the CBA LOA # 29 Industry Reset by not paying United Technicians the
equivalent of 2% above the average of American and Delta Technicians.

14

15

16

17

21. Many United Technicians requested to see the calculation that resulted in a wage that kept them below the wages at American Airlines. The pay gaps between yearly step pay scales were massive ranging from \$4 dollars to \$15 dollars an hour, based on the relative position of a technician in the 8 year pay progression.

18

19 22. When the Industry Reset model was first used in 2016 the pay gap between United and
 20 American technicians in all steps in the 8-year wage progression was a uniform \$1.70 per
 21 hour and the value of the contract was quoted by the Teamsters Union officers as 5.8%
 22 above the average of Delta and American technicians.

23

2016 \$1.70 below AMR at 5.8% turns into \$14.98 below AMR at 2% in 2020

24

23. In 2020, the Union and the Company came out with a new wage schedule based on a
calculation that they claimed was 2% above the Delta and American technicians' average.
The disparity between United and American technician pay scales had increased
dramatically with a range of \$4 dollars to \$15 dollars an hour with no explanation. It did
not make any logical sense to the United Technicians that in 2020 the Industry Reset

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 11 of 74

2

1

3

4

would result in an even larger wage gap between \$4 and \$15 dollars an hour. Many United Technicians questioned the 2020 Industry Reset calculation.

December 15, 2020, United management responded to a technician's request for the 2020 Industry Reset Calculation. Thomas Reardon Managing Director, Labor Relations wrote

5 24. Thanks for your inquiry. LOA 29 provides, among other thing, that economic experts from 6 the Company and the Union must agree on a costing model to calculate the industry reset. 7 The parties agreed on the model within the parameters set out in the LOA and utilized the 8 model for the 2018 and the 2020 industry reset calculations. Much of the data that the 9 model utilizes, like the AA CBA, is publicly available. Some of the information is Company 10 confidential and proprietary and cannot be shared publicly. Additionally, the model itself and its operation is kept secure because its disclosure could put UA at a competitive 11 disadvantage if our competitors were to have access to it. For these reasons, the parties 12 have agreed to maintain the confidentiality of the model. As a result, unfortunately, I'm 13 afraid we can't fulfill vour request. 14

15 16 Thanks TomThomas Reardon Managing Director, Labor Relations(Exhibit #3 Denial from UAL on Reset Calculation)

17 25. The Teamsters official Union response came the following day, and it was almost 18 identical. December 16th, 2020, email from IBT Airline Division Rep Vincent Graziano 19 I forwarded your request for the "actual data used in calculating our final result of our Industry Reset per LOA 29" to the economist who worked on calculating the reset to 20 learn what data we could share. He informed me that he is not in possession of the data 21 you have requested. Although some of the data supporting the reset is publicly available, 22 like the American Airlines Mechanics' collective bargaining agreement, other 23 components of the data are proprietary or confidential information that would give a 24 competitive advantage to United Airlines' competitors if they were to have access to it. 25 As such, the IBT's economic consultants who worked on the Reset calculations had to 26 agree not to disclose that data, even to Teamsters officers and employees, and also had to 27 agree to leave all of the data in United Airlines' exclusive possession.

28

PLAINTIFF'S AMENDED COMPLAINT – CASE NO: 3:21-CV-05346-AGT

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 12 of 74

| 1 | None of it was shared directly with the International Brotherhood of Teamsters, none of |
|--|--|
| 2 | it is in the IBT's or its consultants' possession, and we therefore cannot share it with you. |
| 3 | Wishing you and your family Happy Holidays! |
| 4 | Thanks, |
| 5 | Vinny Graziano |
| 6 | (Exhibit #4 Denial from IBT on Industry Reset) |
| 7 | 26 No and in the Teamsters Union Officers on Democraticities has seen on reviewed the |
| 8 | 26. No one in the Teamsters Union, Officers or Representatives has seen or reviewed the |
| 9 | calculation that resulted in only a 7.06% raise for United Technician's. |
| 10 | 27. The only people who had knowledge of the 2020 Industry Reset calculation were |
| 11 | Cheiron's Pension Actuary Peter Hardcastle and Dan Akins, the IBT economist and the |
| 12 | author of the Industry Reset. Teamsters Rep Vinnie Graziano stated that the calculation |
| 13 | would not be provided to the United Technician membership. The formula was in the |
| 14 | hands of the company and will remain there. |
| 15 16 17 | 28. On January 6, 2021, I filed my second grievance on the Industry Reset (2021-986-SFO-UA-2) the Company and the Union were both withholding information from United Technicians that related to the wage increases outlined in the contract. Without this |
| 18 19 20 | information there is no way for employees represented by the Teamsters at United Airlines to determine the accuracy of their hourly wage. |
| 21 22 23 24 25 26 | 29. The Teamsters Union stated on many different occasions both written and verbally in videos to the membership at United Airlines, that the calculation for the Industry Reset was based on "publicly available information". Today both the Union and the Company refuse to provide the calculation that they have claimed set the hourly wage for United Technicians 2% above the Delta and American technicians' average. |
| 26 | 30. On January 13, 2021, the Company answered the first step grievance and denied it, that |
| 27 | same day only hours later the Teamsters grievance committee closed out the grievance |
| 28 | stating that it lacked sufficient merit. (Exhibit #5 UA-2 Seitz 1-13-2021 Closeout Letter) |
| | PLAINTIFF'S AMENDED COMPLAINT – CASE NO: 3:21-CV-05346-AGT |

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 13 of 74

1 31. I appealed the decision by the Company and the Union who both described my grievance as meritless on the same day within hours of each other. Lacks sufficient merit is a 2 statement, the union made that is not based on any research or fact-finding investigation. It 3 is a statement only. The grievance committee made no effort to investigate before stating 4 the grievance is meritless without providing any reason or evidence, that it was 5 "meritless" before closing out the grievance. The grievance committee never reviewed the 6 calculation Exhibit A, so there was no possible way they could state based on evidence the 7 grievance was without merit. 8 9

32. On January 27, 2021, the Teamsters SFO/LAX Grievance Committee closed out my other
 grievance UA-142 with the same statement "lack of sufficient merit" again they provided
 no reason or explanation why the grievance was closed. The formula Exhibit A in LOA
 #29 was never even reviewed for its content or accuracy. The Collective Bargaining
 Agreement belongs to the employees not the union. The Union has no right to keep the
 calculation Exhibit A from the membership, especially when it concerns the wages of over
 7500 employees and their families. (*Exhibit #6 UA-142 Seitz IBT Closeout Letter*)

33. On February 4, 2021, LAX Teamsters Business Agent Mark DesAngles sent an email
 stating that my closed grievances were now open again. I asked my Chief Steward Greg
 Sullivan who in the Teamsters union decided to reopen my closed grievance and what part
 of the CBA did they use to do it. I asked Greg Sullivan who on the Company side agreed
 to reopen the closed grievance, Greg Sullivan refused to answer either question.
 (*Exhibit #7 Email to IBT Rep Greg Sullivan on Closeout and Re Opening Grievances*)

22

34. A second step hearing was held on March 4, 2021, the Union Grievance Committee did
 not present any information to support the grievance or enforce the contract. The union
 failed to provide or even request the Industry Reset calculation information in Exhibit A,
 even though there were huge disparities in the United Base Wage Rates when compared
 with both American and Delta Technicians based on the only publicly available
 information of Hourly wages and Profit Sharing.

28

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 14 of 74

| 1 | 35. I presented 12 exhibits in the grievance hearing and the Teamsters union presented as |
|----|---|
| 2 | evidence only the original grievances they had closed over a month earlier as meritless. |
| 3 | The Company and the Union both refused to answer any questions related to the |
| 4 | reopening of the grievances. What part of the CBA did they use? Who authorized the |
| 5 | reopening of the grievance from the Company and the Union side? The Company |
| | provided 2 exhibits at the second step hearing, the new wage scale and the language from |
| 6 | LOA that described the cost model Exhibit A. The company's position was finished with |
| 7 | this statement "there is nothing in the contract or LOA that says we have to show you the |
| 8 | formula. "(Exhibit #8 Reset Hearing Questions on Procedural Issues) |
| 9 | |
| 10 | 36. On March 22, 2021, I emailed Chief Steward Greg Sullivan and instructed him to notify |
| 11 | the company that I would move my grievance forward with or without Union support. |
| 12 | (Exhibit #9 Email to IBT Greg Sullivan Status of Grievance) |
| 13 | |
| 14 | 37. On March 23, 2021, Greg Sullivan emailed a Closeout letter on my grievance stating that |
| 15 | it lacks sufficient merit to move forward. This was the same statement made when the |
| 16 | Teamsters union closed out the grievance in January. Greg Sullivan stated the closeout of |
| | the grievance is final (this time). Greg Sullivan also wrote there is no process in the |
| 17 | contract to move the grievance forward on your own. |
| 18 | (Exhibit #10 Email and Closeout letter from IBT Greg Sullivan) |
| 19 | |
| 20 | 38. In April of 2021 my attorney contacted the National Mediation Board (NMB) to get a |
| 21 | copy of the Industry Reset formula negotiated in 2016. In 2018 the Teamsters union stated |
| 22 | in several publications that the formula was held on a secure server at the National |
| 23 | Mediation Board. According to John Gross from National Mediation Board (NMB) he |
| 24 | stated, "we never had the cost model on a server and never would" "we do not have a |
| 25 | server like that, we do not use servers like that" So why did the Teamsters union and its |
| 26 | representatives present false information to the United Technicians 6 months prior to the |
| | first industry reset? |
| 27 | (Exhibit #11 NMB Letter for FOIA F-1784) |
| 28 | |

| 1 | | VI. HYBRID CLAIM |
|----|-----|--|
| 2 | | |
| 3 | 39. | The Union and the company are in breach of contract for failing to pay United Airlines |
| 4 | | Technicians 2% above the average of American and Delta Technicians. The Teamsters |
| 5 | | union is in violation USC 45 Section 184 by failing to follow the grievance process |
| 6 | | outlined in the CBA and allowing a grievance to move forward to arbitration. The |
| 7 | | Teamsters and United Airlines have breached the CBA by failing to disclose the Industry |
| | | Reset calculation found in Exhibit A of LOA #29 Industry Reset in 2020. |
| 8 | | |
| 9 | | VII. FUTILITY |
| 10 | 40. | The Teamsters and United Airlines have acted in concert to conceal from the United |
| 11 | | Technicians the publicly available information contained in LOA #29 Industry Reset |
| 12 | | Exhibit A Cost Model that determines their hourly wage. Furthermore, the company and |
| 13 | | the union have manipulated the grievance process and have refused to follow the CBA to |
| 14 | | provide arbitration. It would be absolutely futile to follow the process outlined in the CBA |
| 15 | | and RLA when the Teamsters and United Airlines have refused to provide Exhibit A Cost |
| 16 | | Model of LOA #29 to United technicians. |
| 17 | | |
| 18 | | VIII. CAUSES OF ACTION |
| 19 | | COUNT I VIOLATION OF THE DLA USC 45 |
| | | COUNT I - VIOLATION OF THE RLA USC 45 |
| 20 | 41 | Airline employees have an individual statutory right under the Railway Labor Act to |
| 21 | | access the grievance and arbitration process mandated by Section 184 of the RLA, with or |
| 22 | | without the certified union as a party. The union violated my rights when the union closed |
| 23 | | my grievance without my knowledge or consent and failed in their Duty of Fair |
| 24 | | Representation when they closed my grievance without investigating the merits of the |
| 25 | | grievance. The union's actions are a breach of the duty of fair representation by denying |
| 26 | | the right to arbitration under USC 45. |
| 27 | | - |
| 28 | | |

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 16 of 74

1 42. In this complaint the Teamsters union closed the grievance without the grievants consent with a closeout notice in January 2021 stating that it had no merit. Nearly a month later 2 the union without giving a reason then reopened the grievance. There is no procedure 3 outlined in the contract to reopen closed grievances. When asked the union refused to 4 explain its reasons for reopening the grievance. A Second Step hearing was then held in 5 March of 2021 and the union made no effort to provide any information related to Exhibit 6 A the cost model in the CBA for the 2020 Reset calculation or perform any investigation 7 to verify the accuracy of the 2020 Reset. The SFO Local 986 Teamsters grievance 8 committee again closed out the grievance without the grievants consent and again claimed 9 that the grievance had no merit. 10 11 43. The union and the company both refused to provide the grievant with Exhibit A the Cost Model that is contained in LOA #29 as part of the CBA. The union gave no explanation or 12 rational basis for closing out the grievance. The Teamsters union admits in writing that no 13 one in the Teamsters union has seen the 2020 Industry Reset Exhibit A Cost Model so 14 how can anyone in the union or the SFO Teamsters Local 986 grievance committee make 15 the statement that the grievance has no merit. 16 17 **COUNT II - BREACH OF CONTRACT** 18 19 44. **Breach of Contract -** United Airlines failed to follow LOA #29 Industry Reset and pay United Technicians 2% above the average of American and Delta Airlines as determined 20 by Exhibit A of LOA #29. United Airlines is in breach of contract for failing to pay the 21 correct hourly rate to all United Airlines technicians and other employees in the 22 Mechanics Class and Craft Collective Bargaining Agreement. 23 24 **COUNT III – VIOLATION OF CA LABOR CODE 226** 25 26 45. Violation of California Labor Code 226 27 The Company is in violation of California Labor code 226. The United Technicians Base 28 Wage Rate is set in the calculation of LOA #29 Exhibit A. This is the cost model that PLAINTIFF'S AMENDED COMPLAINT - CASE NO: 3:21-CV-05346-AGT

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 17 of 74

1 determines their hourly wage is 2% above the average of AA/DL, and this information is not being provided to the employees by the Company. The hourly Base Wage is 2 determined in Exhibit A and is based on a calculation that is part of the employees 3 collective bargaining agreement. 4

- 46. The definition of wages in the California Labor code is as follows "Wages" includes all amounts for labor performed by employees of every description, whether the amount is fixed or ascertained by the standard of time, task, piece, commission basis, or other method of calculation.
- 9

5

6

7

8

10 47. The wage rate set by the United Technicians contract is determined by a calculation called Exhibit A in LOA #29, the employees at United Airlines have right to review that calculation. (Exhibit #12 UAL No Obligation to show Cost Model to Employees) 12

13

14

11

48. California Labor Code 226

(a) An employer, semimonthly or at the time of each payment of wages, shall furnish 15 to his or her employee, either as a detachable part of the check, draft, or voucher paying 16 the employee's wages, or separately if wages are paid by personal check or cash, an 17 accurate itemized statement in writing showing (1) gross wages earned, (2) total hours 18 worked by the employee, except as provided in subdivision (j), (3) the number of piece-19 rate units earned and any applicable piece rate if the employee is paid on a piece-rate basis, (4) all deductions, provided that all deductions made on written orders of the 20 employee may be aggregated and shown as one item, (5) net wages earned, (6) the 21 inclusive dates of the period for which the employee is paid, (7) the name of the 22 employee and only the last four digits of his or her social security number or an employee 23 identification number other than a social security number, (8) the name and address of the 24 legal entity that is the employer and, if the employer is a farm labor contractor, as defined 25 in subdivision (b) of Section 1682, the name and address of the legal entity that secured 26 the services of the employer, and (9) all applicable hourly rates in effect during the pay 27 period and the corresponding number of hours worked at each hourly rate by the 28 employee.

PLAINTIFF'S AMENDED COMPLAINT - CASE NO: 3:21-CV-05346-AGT

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 18 of 74

1 49. The Non-Pay Elements outlined in the Industry Reset calculations are part of the calculation for the hourly wage rate and need to be shown to determine if the actual rate of 2 United Technicians pay is in fact 2% above the Delta/American Industry Reset Average. 3 Based on the refusal of both the Teamsters Union and United Airlines employees have no 4 way to easily determine if their hourly wage is 2% above the Delta/American average. 5 6 50. California Labor Code 226 also states (2) (A) For the purposes of this paragraph, 7 "promptly and easily determine" means a reasonable person would be able to readily 8 ascertain the information without reference to other documents or information. 9 10 **COUNT IV – VIOLATION OF CA LABOR CODE 223** 11 51. Violation of California Labor Code 223 12 Where any statute or contract requires an employer to maintain the designated wage 13 scale, it shall be unlawful to secretly pay a lower wage while purporting to pay the wage 14 designated by statute or by contract. 15 16 52. Based on the publicly available information of Pay and Profit-Sharing Delta Airlines 17 Technicians Pay and Profit Sharing for 2020 was equivalent to \$60.80 cents an hour. 18 American Airlines Technicians Pay and Profit Sharing for 2020 was equivalent to \$56.80. 19 Based on this information the Delta / American technicians average plus 2% is over \$59.97. United Technicians Top Scale base payrate was set at \$52.14, which was \$7.83 20 below the hourly average of the Delta and American Average plus 2%. 21 22 53. Based on this information, the hourly wage agreed to by the Company and Teamsters 23 Union in November of 2020 is lower than the average of American and Delta Plus 2%. 24 The Company is in violation of California Labor Code 223 by paying its Mechanics and 25 Related below the designated wage scale. 26 27 28

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 19 of 74

| 1 | COUNT V – VIOLATION OF CA LABOR CODE 222 |
|----|---|
| 2 | |
| 3 | 54. Violation of California Labor Code 222 |
| 4 | It shall be unlawful, in case of any wage agreement arrived at through collective |
| 5 | bargaining, either willfully or unlawfully or with intent to defraud an employee, a |
| 6 | competitor, or any other person, to withhold from said employee any part of the wage |
| 7 | agreed upon. |
| 8 | 55. The claimed calculation is unclear to United Technician employees from 2016 to 2018 and |
| 9 | 2020 the Teamsters Union and the Company have continually provided less and less |
| 10 | information to the employees. The once claimed "'publicly available information" has |
| 11 | now become proprietary and confidential, which is in complete contradiction of the |
| 12 | statements made by the union and the Industry Reset model given in 2016. |
| 13 | |
| 14 | 56. California Labor Code also defines Wages - 200. |
| 15 | As used in this article: (a) "Wages" includes all amounts for labor performed by |
| 16 | employees of every description, whether the amount is fixed or ascertained by the |
| 17 | standard of time, task, piece, commission basis, or other method of calculation. |

58. While the 2020 Industry Reset Calculation agreed to by United and the Teamsters Union denies United Technicians their agreed upon wage, it also gives United Airlines an unfair advantage over the other competitors like American and Delta Airlines.

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 21 of 74

59. United Airlines and the Teamsters have agreed to a secret calculation that results in a
 substandard wage scale well below the "2% Above the American and Delta average".
 United currently pays their technicians \$153,753.60 less than their peers at American
 Airlines over the first 9 years of their career.

60. These low technician wages give United Airlines an anti-competitive advantage over American Airlines, while depriving United Technicians their agreed upon wages. In 2016 the year the cost model was presented, the disparity in pay between American and United Technicians was \$31,000.00 over the same United Pay Scale Steps and the Teamsters stated the value of the contract was 5.8% above the AA/DL average.

25

26

27

21

22

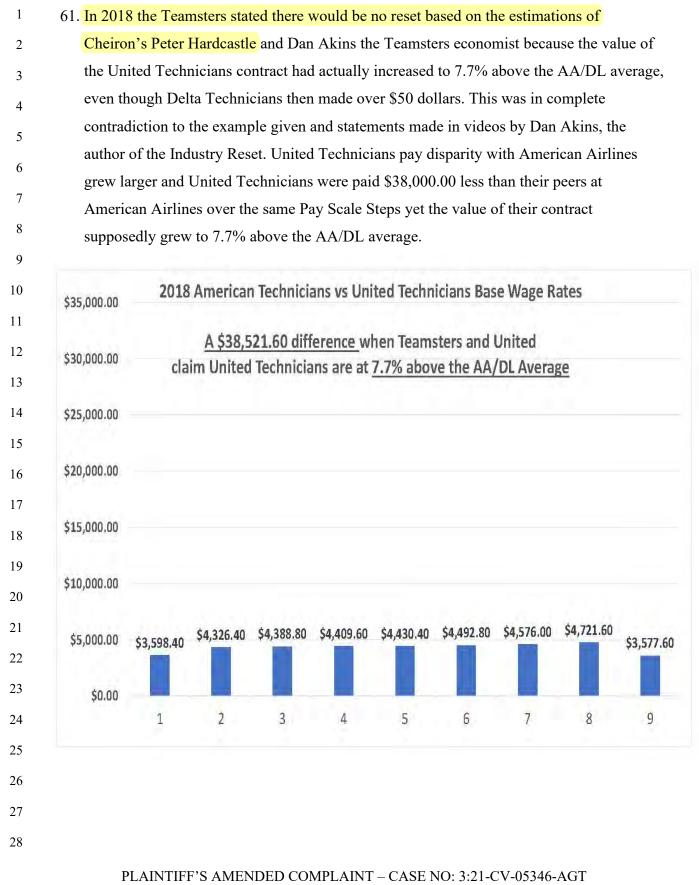

23

24

56. Dan Akins the author of the "Industry Reset" stated in a video that the information related to the Industry Reset was publicly available.

28

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 22 of 74

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 23 of 74

1 62. November of 2020 the Teamsters Airline Division announced that United Technicians would receive a reset in wages but did not provide any information or calculation to 2 explain or show how they arrived at the 7% raise. The chart below shows the disparity 3 between American and United technician Base Hourly Wage Rates. The difference 4 between American and United technician pay increased dramatically throughout the Wage 5 Scale progression, in some cases by 39%. 6

63. In 2020 the pay scale disparity now ranged from \$4.00 an hour to \$15.00 an hour and the total earnings over the Wage Scale Progression grew from \$31,000.00 in 2016 to over \$139,000.00 in 2020.

7

8

9

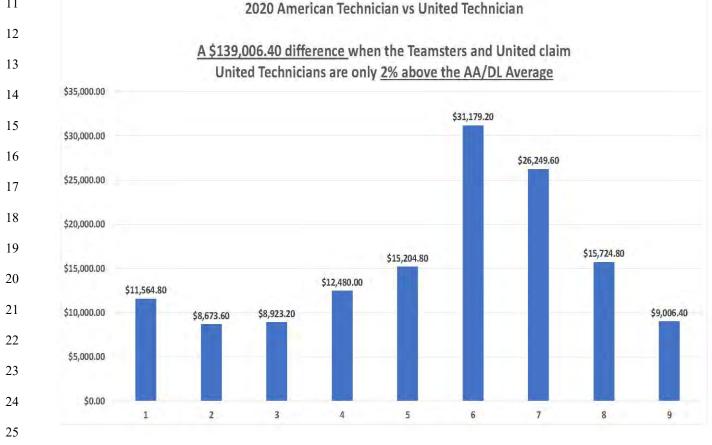

10

11

26

27

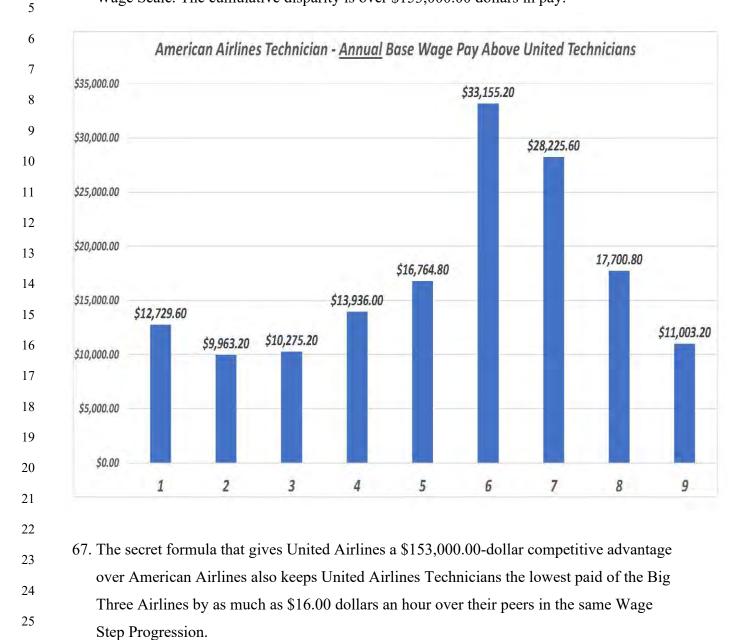

28

64. With these enormous disparities in pay the Teamsters union and United Airlines claimed that the value of the new wage increase brought United Technicians to 2% above the AA/DL Industry average.

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 24 of 74

- 65. As of March 2021, United Airlines paid their aircraft technicians \$153,000.00 less than American Airlines in Base Hourly Wages over the first 9 years of their employment.
 - 66. Below is a graph showing the current disparity in pay each year of the United technicians Wage Scale. The cumulative disparity is over \$153,000.00 dollars in pay.

| 1 | IX. BACKGROUND AND HISTORY OF THE |
|----|---|
| 2 | INDUSTRY RESET |
| 3 | |
| 4 | 68. November 2015 the Joint Collective Bargaining Agreement (JCBA) Tentative Agreement |
| 5 | (TA) titled "Company proposal" contained the Industry Reset at that time it was called the |
| 6 | AA Reset modeled after the 2012 American Airlines contract. This TA was voted down |
| 7 | by the United membership by 93% because of the inclusion of the Teamsters imposed |
| 8 | mandatory Teamcare Health care plan which was more expensive than the existing health care plan in the United Technicians contract. |
| 9 | care plan in the Olified Technicians contract. |
| 10 | 69. August of 2016, the second JCBA Tentative Agreement is reached it is called an AIP or |
| 11 | agreement in principle. The name of the AA Industry Reset LOA is changed to LOA #29 |
| 12 | the "Industry Reset". |
| 13 | |
| 14 | 70. The Calculation was provided to the United membership prior to the vote, showing in |
| 15 | detail the valuations of the United T/A and the Delta and American Airlines average in the |
| 16 | following categories – Pay - All in Wages including \$1.20 VEBA and the following Non- |
| 17 | Pay Elements. Time off \$1.56, Medical .11 cents, Retirement .47 cents, Profit Sharing |
| | minus \$(1.01) and Scope minus (.12) cents each of these non-Pay categories in the |
| 18 | calculation had a calculated hourly value. All these values were then added together |
| 19 | equaled \$1.02 above AA/DL average, the Teamsters stated the value of the T/A was stated |
| 20 | to be 5.8% above the Delta and American average as established through defined and agreed criteria. |
| 21 | agreed enteria. |
| 22 | 71. October 2016 - In a video presented to the United membership Dan Akins the creator of |
| 23 | the reset model stated the model will not change and is based on publicly available |
| 24 | information. The Industry Reset will be reviewed in 2018, 2020 and 2022 and then be |
| 25 | performed every year thereafter until a new CBA is ratified. Dan Akins stated that United |
| 26 | Technicians 15% Profit Sharing was given back to pay for the industry reset language and |
| 27 | replaced with the current 5% Profit Sharing. |
| 28 | |

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 26 of 74

1 72. December 2016 – The Joint Collective Bargaining Agreement (JCBA) is barley ratified, 50.1% Yes to 49.9% No. LOA #29 the Industry Reset is in place based on statements 2 made by Dan Akins and IBT officials that stated the value of the contract is 5.8% above 3 the American / Delta average. 4 5 73. February 2018 the first year of the Industry Reset United Technicians saw their Profit-6 Sharing checks fall from 11.8% of their wages paid in 2017 to 3% of their wages paid in 7 2018. Teamsters Airline Division Rep Vinnie Graziano wrote a letter to the membership 8 over the loss of 15% Profit Sharing and stated United Technicians 15% profit sharing was 9 traded for the Industry Reset and stated that we would get a raise based in part on Deltas 10 Profit sharing, which was 10% in 2018 or \$4.90 an hour. Delta Profit Sharing was never 11 shown in the 2018 Industry Reset. 12 74. May 2018 SFO/LAX Teamsters Business Agent Report stated that all calculation 13 information is publicly available. "It should be noted here that all the factors used for the 14 calculations are readily available through SEC filings and other public sources". The 15 monthly report from the Teamsters business agents further went on to write. "When this 16 language was being negotiated, the Company set out a huge list of factors that they 17 wanted considered in this calculation, some of them very abstract. It was no small feat to 18 get the factor list down to what we have now. And, although we will obviously use our 19 actuaries when we are determining retirement related costs, the calculations will definitely be simpler as a result of those efforts." 20 21 75. June 2018 Vinnie Graziano writes in the Mechanics Dispatch that the economic Model for 22 the Industry Reset was agreed to shortly after ratification and is on the "server at the 23 NMB" the economic model was completed and agreed upon shortly after the ratification 24 of the Agreement. He wrote, the model is kept on a server at the NMB for security. This 25 would be proven to be a false statement made several times by Teamsters officials over

27

26

28

PLAINTIFF'S AMENDED COMPLAINT – CASE NO: 3:21-CV-05346-AGT

the years based on the April 29, 2021, letter from the NMB Exhibit #11.

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 27 of 74

| 1 | 76. In the fall of 2018, the first Industry Reset was due to be out, by that time Delta | |
|----|--|----|
| 2 | Technicians pay had increased to \$50.67 they also received an additional 1% contribution | L |
| 3 | to their 401k Defined Contribution and received 10% in Profit Sharing in 2018. This | |
| 4 | information is important and relative because when Dan Akins presented the Industry | |
| 5 | Reset in 2016, he stated at the 10-minute mark in the Teamsters T/A video that if Delta | |
| 6 | were to go above \$50 dollars an hour, we would have the mechanism in the reset to catch | |
| 7 | them. This was explained in the presentation created by Dan Akins that showed United | |
| 8 | Technicians receiving a specified raise if Delta moved to \$50 dollars an hour. | |
| 9 | 77. Despite Delta Technicians eclipsing \$50 dollars an hour and receiving an additional 1% ir | 1 |
| 10 | their 401k, 10% in their Profit Sharing and the United contract remaining the same, Dan | |
| 11 | Akins and Peter Hardcastle the Teamsters external actuary from Cheiron stated that | |
| 12 | United Technicians would not receive a raise. | |
| 13 | | |
| 14 | 78. Below is a quote from Peter Hardcastle the IBT pension actuary as the reason for no reset | |
| 15 | in 2018. "I met with United's external actuary to discuss the methodology and | |
| 16 | assumptions behind the calculation of the cost of CARP. The methodology used by | |
| 17 | United's actuary considers the market value of the accruals and is consistent with U.S. | |
| 18 | accounting standards. The cost is based solely on the population of United mechanics and | ł |
| | only relates to the cost of benefit accruals for the year. I am in agreement with the | |
| 19 | methodology used, and I know from experience that the results lie within the range of my | |
| 20 | expectations. The increase in United's service cost for CARP since 2016, as applied in the | |
| 21 | cost model, is consistent with my expectation given the increase in benefit population due | |
| 22 | to the inclusion of the larger and more senior UA Mechanics group, as well as a further | |
| 23 | drop in the discount rate since 2016." | |
| 24 | 79. Dan Akins of Akins and Associates and Peter Hardcastle of Cheiron both hired by the | |
| 25 | Teamsters International Union, stated that the 2018 value of the United Technicians | |
| 26 | contract increased from 5.8% in 2016 to 7.7% in 2018 above the American and Delta | |
| 27 | average additionally, they stated the non-Pay elements increased from \$1.02 to \$3.67 cent | ts |
| 28 | per hour but did not provide any "publicly available information" that their wage and | |

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 28 of 74

benefits calculation was based on. The Teamsters and United Airlines refused to provide
 United Technicians with a breakdown of the publicly available information used in the
 Cost Model described as Exhibit A of the LOA in the United Technicians contract for the
 2018 Industry Reset Calculation.

- 80. December 2018 Vinnie Graziano wrote in the Mechanics Dispatch, 'To ensure that the numbers the company provided are correct, we have asked Mr. Akins and an outside actuary, Peter Hardcastle, to continue the review that had already begun under the LOA.
 These numbers need to be verifiable to both parties for the next measurement period with the hope being that American Airlines will reach a deal by that time. After this review is complete, a report will be shared with the membership in the same fashion as the 2016 dispatch that laid out the industry average.
- 81. No detailed breakdown of the publicly available information was presented by the
 Teamsters union for the 2018 Industry Reset. The mechanics dispatch only listed the
 average hourly rate of AA/DL as \$49.31 and the non-Pay elements total which increased
 by over 360% from \$1.02 in 2016 to \$3.67 in 2018, with no information to support their
 360% increase.

- 18 82. There was no way to know if the increase in Delta Airlines pension and 10% Delta Profit
 19 Sharing were included in the calculation. There is no way for a United Technicians to
 20 verify that their hourly wage is in fact 2% above the AA/DL average.

- *~ 1*

| 1 | | X. DEMAND FOR RELIEF |
|----|-----|---|
| 2 | | |
| 3 | 83. | I would like the court to decide that the Teamsters have breached their duty of fair |
| 4 | | representation because they have denied my grievance as meritless without providing any |
| 5 | | facts or reasons for doing so. They have failed to allow me to move my grievance forward on |
| 6 | | my own which is my right under the Railway Labor Act. |
| 7 | 81. | We request the court to order the Teamsters and United Airlines to release all information |
| 8 | | contained in Exhibit A for the 2020 Industry Reset calculation. The Collective Bargaining |
| 9 | | Agreement including Exhibit A in LOA #29. This information belongs to the employees who |
| 10 | | work in the Mechanics Class and Craft at United Airlines. |
| 11 | 82. | We request the court to order the release for independent membership review the 2016 and |
| 12 | | 2018 Industry Reset Calculations that determined their hourly wage and all such calculations |
| 13 | | going forward. |
| 14 | | |
| 15 | 83. | We would like the court to determine if United Airlines is in violation of the Railway Labor |
| 16 | | Act by withholding wage calculation information that is part of the Mechanics and Related |
| 17 | | Collective Bargaining Agreement and California Labor Code 226 by failing to provide to |
| 18 | | employees the calculation that determines their Base Hourly Wage Rate. |

UNITED

Technician's Industry Reset Overview

Data, Methodology and Timing

The Reset is Designed to Ensure that UA Technician's Contract Value Remains at least 2% Above Average of AA and DL Technicians

Contract Valuation

A Reset Model has been created to measure the sum value of 5 key contract elements in UA Technician's contract, including; Pay, Time Off, Benefits, Profit Sharing and Scope.

The total value of UA contract elements is then weighed against the average of the same elements for Technicians who work for AA and DL.

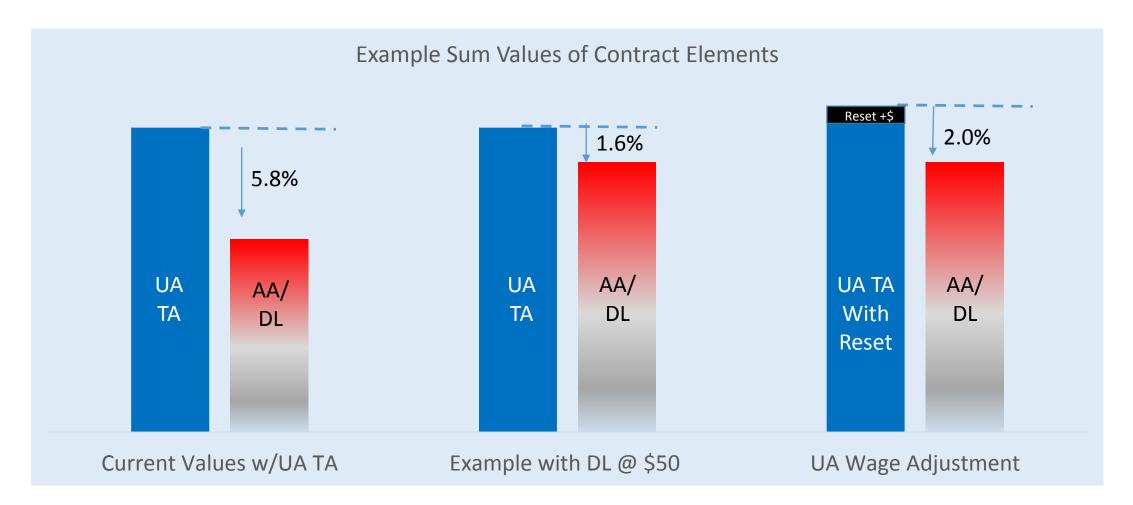

Reset Mechanism

The total value of UA Technician's contract elements must remain at least <u>2.0% above</u> the average of AA/DL. If the value of UA Technician's contract it is not at least 2.0% above the average value of AA/DL, the wages of UA Technicians will be increased by an amount to increase the UA contract value to 2.0% above the average of AA/DL.

Timing

The Reset measurement which occurs every 24 months during contract, and then every 12 months after amendable date to ensure that during the bargaining period for next contract UA Technicians remains above AA/DL by at least 2%.

Example of Reset Model Current Value With UA TA and Reset If DL Top of Scale @ \$50

Industry Reset Overview

- Purpose: The industry reset is designed as a mechanism to ensure that the sum value of United Technician's primary contract elements remain at least 2% above the average of the same contract elements for Technicians of American and Delta.
- Timing: Reset analysis will occur every 24 months after date of ratification over the course of contract, and every 12 months after the amendable date.
- Mechanism: A reset model has been created to measure and compare the value of a selected set of primary contractual elements covering pay, benefits, work rules and retirement contribution level for Technician's at United to that of the average of Technicians at American and Delta. The model's structure will not change, only the periodic updates of data elements being analyzed will change.
- Application: If the results of the reset model indicate that the sum value of the United's Technician's contractual elements do not exceed the average value at American and Delta by 2%, the United Technician's wages will be adjusted upwards by an amount needed to adjust United Technician's contract value to 2% above the average of DL and AA Technician's contract.
- One-Way Valve: The reset can only be used to improve wages for United Technicians and will not be used to reduce United Technicians wages under any circumstances.

Individual Contractual Elements Analyzed in Reset Model

Contract Elements Included in the Reset Analysis

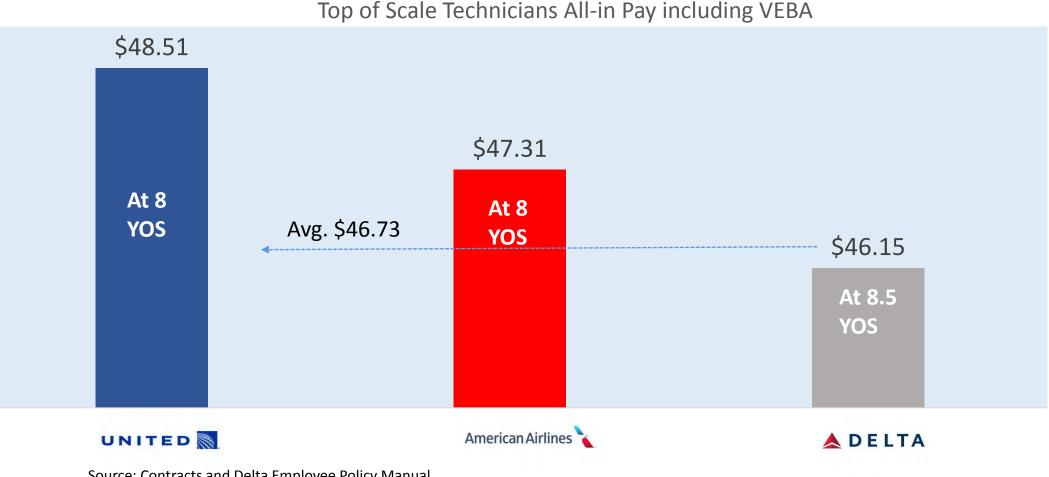

1) Pay

- Technicians All-in Wages (Basic pay, A&P License Premium, Line and Longevity)
- VEBA
- 2) Time Off
 - Annual Vacation, Sick and Holiday Hours
- 3) Benefits
 - Medical Cost Share
 - Retirement Contribution
- 4) Profit Sharing
 - Profit sharing % to annual UA pre-tax profits
- 5) Scope
 - Based on ratio of Technicians heads per mainline aircraft

Note: Model analyzes Pay and Time Off element values at 10, 20 and 30 years of service, weighted 20%, 40%, 20% respectively for headcount. Gaps in all elements besides pay converted to dollars per hour based on UA All-in rate for computability in comparisons.

LOA #29 - INDUSTRY RESET

December 5, 2016

Captain David Bourne Director, Airline Division International Brotherhood of Teamsters 25 Louisiana Avenue, N.W. Washington, DC 20001

Dear Captain Bourne:

This letter will confirm our agreement that notwithstanding anything to the contrary in 2016-2022 Technicians and Related Agreement ("United-IBT Agreement"), if at the effective date of the United-IBT Agreement plus 24 Months, 48 months, on the amendable date and every 12 months after the amendable date provided no successor agreement has been reached, United Airlines, Inc.'s ("UAL") Annual Employee Wages and Benefits is not at least two percent (2%) higher than the average of American Airlines' and Delta Airlines' Wages and Benefits, then United's basic wages will be adjusted so that United's Wages and Benefits are two percent higher than said average.

- 1. Definitions.
 - a. "Covered Classifications" means employee classifications covered by the United-IBT Agreement.
 - b. "AA CBA" means the joint American Airlines ("AA") collective bargaining agreement(s) in effect as of the Measurement Date that govern(s) terms and conditions of employment of AA's class(es) or craft(s) of employees performing work equivalent to that performed by the Covered Classifications. If an equivalent AA classification is not covered by a CBA, then for that classification "AA CBA" shall mean the applicable AA policies governing Annual Wages and Benefits. If legacy American Airlines and legacy US Airways have not reached a joint collective bargaining agreement before the Measurement Date, the legacy US Airways collective bargaining agreement will be applied as the "AA CBA."
 - c. "DL CBA" means the Delta Airlines ("DL") collective bargaining agreement(s) in effect as of the Measurement Date that

Case 3:21-cv-05346-A Exhibit #2men 8 #29 do to 50 / 2 Set age 48 of 74

govern(s) terms and conditions of employment of DL's class(es) or craft(s) of DL employees performing work equivalent to that performed by the Covered Classifications. If an equivalent DL classification is not covered by a CBA, then for that classification "DL CBA" shall mean the applicable DL policies governing Annual Wages and Benefits.

- d. The first "Measurement Date" is the first day of the month that is 24 months after the effective date of this agreement. Subsequently, there will be a measurement date 48 months after the effective date of this agreement, followed by on the amendable date of the agreement and on the first day of the month following each 12 month anniversary of the amendable date. The parties shall meet to commence the process 6 months prior to the first Measurement Date.
- e. "Annual Employee Wages" is the average of the sum of the highest, hourly rate in each of the following categories for an A&P, line aircraft technician:
 - 1) basic wages
 - 2) license premiums
 - 3) line premium
 - 4) longevity premiums
 - 5) VEBA premium/contributions
 - 6) profit sharing

at the Measurement Date times 2080 hours. For example, if the respective rates are 40.06, 5.25, 1.00, 1.00 and 1.20. The calculation is $40.06 + 5.25 + 1.00 + 1.00 + 1.20 = 48.51 \times 2080 = 100,901$.

- f. "Annual Employee Benefits" includes the following:
 - 1) retirement benefits including defined contribution retirement plans (top-of-scale), defined benefit retirement plans
 - 2) active medical plan cost share

- g. "Time off Adjustments" is the annual cost adjustment for the following:
 - 1) sick pay accrual (max of available accrual)
 - 2) vacation accrual
 - 3) holidays (including both fixed and floating)
- h. "Annual Wages and Benefits" is the sum of Annual Employee Wages, Annual Employee Benefits and Time-off Adjustment for 10, 20 and 30 years of service weighted 20 percent, 60 percent and 20 percent respectively.
- i. "Scope Adjustment" is a final adjustment based on the ratio of the number technicians and related crafts covered in the IBT CBA per mainline aircraft as follows:
 - Number of Full Time Equivalent Employees (FTEs) in comparable positions performing aircraft maintenance covered in the United IBT CBA at each United, American and Delta (adjusted for FTEs dedicated to outside maintenance). The number of FTEs is then divided by the total number of mainline aircraft (owned or leased) as reported in the most recent SEC annual 10-K filing.
 - 2) The ratio of technicians (and related crafts) per aircraft for each carrier will be applied to the value calculated as the summary of "Annual Wages and Benefits" at each carrier, as described above, using the United ratio as the baseline to adjust the Annual Wages and Benefits values of AA and DL by the difference in staffing ratios versus UA
 - 3) This ratio will be applied to adjust UA Annual Wages and Benefits at 25 percent of full differential determined. Headcount information must be jointly verified and agreed to by both parties (UAL and IBT) to ensure that the equivalent classifications represented by IBT at United and other carriers (DL and AA) are represented in the analysis. If agreement cannot be reached on the validity of most current available representative headcount from either AA and/or DL then that carrier will be excluded from in the analysis. The Scope Adjustment

cannot cause a decrease or increase to United's adjusted rate by more than fifty basis points if two carriers are used in the analysis or twenty-five basis points if one carrier is used in the analysis.

- j. "Cost Model" is an economic model, based in MS Excel, which calculates Annual Employee Cost. The model is to be agreed upon by economic experts from the company and the union within two months after the date of ratification of UA's agreement as Exhibit "A". If an agreement is not reached within this timeframe, the matter may be submitted for expedited arbitration as provided in Article 1 G.
- 2. <u>Adjustment Calculation</u>. If the results of the analysis demonstrate that, as of the Measurement Date, UAL's Annual Wages and Benefits is less than 102 percent (102%) of the combined average of Annual Wages and Benefits under AA CBA and DL CBA, then UAL shall adjust basic wages effective at the beginning of the first pay period after each measurement date to be 102 percent of the combined average. If it is determined that a one-time adjustment will take place, any subsequent pay increases will not take place until such time that the rates in the original UA CBA exceed those rates in the adjusted scale. No adjustment covered in this letter of agreement can cause wage rates to decrease. All other scales in this agreement will also be adjusted so that the percentage difference between each scale and the technician scale remains the same. All lead position pay rates will be recalculated based on the 5% methodology outlined Appendix A.

The parties shall meet to review the Cost Model for the purposes of reaching an understanding of the adjustment analysis. In the event the parties are unable to reach an understanding relative to the adjustment analysis, the matter may be submitted for expedited arbitration as provided in Article 1 G.

Sincerely,

/s/ P. Douglas McKeen

P. Douglas McKeen SVP, Labor Relations United Continental Holdings, Inc.

Agreed, this 5th day of December, 2016

/s/ Captain David Bourne

Captain David Bourne Director, Airline Division International Brotherhood of Teamsters

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 51 of 74 Exhibit #3 Denial from UAL on Reset Calculation

From: "Reardon, Thomas - LR" Date: December 15, 2020 at 13:28:45 EST To: "redacted UAL Mechanic,

Subject: RE: Reset LOA 29

Dear redacted UAL Mechanic

Thanks for your inquiry. LOA 29 provides, among other things, that economic experts from the Company and the Union must agree on a costing model to calculate the industry reset. The parties agreed on the model within the parameters set out in the LOA and utilized the model for the 2018 and the 2020 industry reset calculations. Much of the data that the model utilizes, like the AA CBA, is publicly available. Some of the information is Company confidential and proprietary and can't be shared publicly. Additionally, the model itself and its operation is kept secure because its disclosure could put UA at a competitive disadvantage if our competitors were to have access to it. For these reasons, the parties have agreed to maintain the confidentiality of the model. As a result, unfortunately, I'm afraid we can't fulfill your request.

Thanks,

Tom

Subject: Reset LOA 29

Ms.Ross & Mr.Reardon,

I would like to request a copy of the actual cost model,numbers,facts,data, etc... used in calculating our final result of our Industry Reset per LOA 29. I believe we have a right to have the facts and figures for the reset.

Redacted UAL Mechanic

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 52 of 74 Exhibit #4 Denial from IBT on Industry Reset

Begin forwarded message:

From: Vinny Graziano Date: December 16, 2020 at 07:56:45 EST To: redacted UAL Mechanic Subject: Re: LOS 29 Reset

Dear Redacted

I forwarded your request for the "actual data used in calculating our final result of our Industry Reset per LOA 29" to the economist who worked on calculating the reset to learn what data we could share. He informed me that he is not in possession of the data you have requested. Although some of the data supporting the reset is publicly available, like the American Airlines Mechanics' collective bargaining agreement, other components of the data are proprietary or confidential information that would give a competitive advantage to United Airlines' competitors if they were to have access to it. As such, the IBT's economic consultants who worked on the Reset calculations had to agree not to disclose that data, even to Teamsters officers and employees, and also had to agree to leave all of the data in United Airlines' exclusive possession. None of it was shared directly with the International Brotherhood of Teamsters, none of it is in the IBT's or its consultants' possession, and we therefore cannot share it with you.

Wishing you and your family Happy Holidays!

Thanks,

Vinny Graziano

The Union and the Company refuse to provide the calculation as outlined in the 2016 T/A Letter of Agreement and in statements and publications put out by the Teamsters Union. In 2016 and 2018 the Union stated this was publicly available information but now refuse to show the calculation for 1. Wages & Profit Sharing 2. Retirement & Medical 3. Vacation & Sicktime 4. Scope Adjustment.

In 2018 IBT advisor Cheiron Inc claimed the sum value of Non Pay Items increased 360%. and stated that CARP pension funding costs increased significantly despite the fact that Company Contributions to CARP in 2018 were \$150 Million dollars less than 2016. CARP was 153% funded in 2016 and 171% funded in 2018 so why did the costs increase? United Technicians do not bear the cost to administer, fund or maintain the CARP pension plan. CARP Pension administration costs are not the responsibility of the United Technicians. The CARP Pension, 401k and Profit Sharing are all ERISA plans the union and company refusal to provide United employees information on these plans is a violation ERISA laws.

Delta Technicians Pay and Profit Sharing for 2020 is equivalent to \$61.00 American Airlines Pay and Profit Sharing is equivalent to \$57.00 the average is \$59.00 plus 2% which is at least \$60.00 an hour. Delta Airlines 2019 Profit Sharing was 16.7% or \$8.50 per hour.

Topic: 15: Compensation and all other applicable chapters of the United Airlines IBT CBA.

Violation: Article 15 - Compensation

Violation date 12/17/2020

Remedy: To be made whole. Provide 2020 IBT Industry Reset Calculation information to the United Technician Membership and Make Whole

Supervisor first contacted: Colin Botto

Date of oral answer: 1/4/2021

Case facts:

Proprietary Information, on or around December 17th United Airlines and the Teamsters Union refused to provide the Industry reset Calculation to the United Technicians claiming the information in the 2020 Rest Calculation was now "proprietary " despite the fact that this information was public information in 2016.

The Union and the company refuse to provide the calculation as outlined in 2016 T/A Letter of Agreement and in statements and publication put out by the Teamsters Union. In 2016 and 2018 the Union stated this was publicly available information but now refuse to show the calculation for 1. Wages & Profit Sharing 2. Retirement & Medical 3. Vacation & Sick time 4. Scope Adjustment.

In 2018 IBT advisor Cheiron Inc claimed that the sum value of Non Pay items increased 360 %. and stated that the CARP pension funding costs increased significantly despite the fact that Company Contributions to CARP in 2018 were \$150 Million dollars less than 2016. CARP was 153% funded in 2016 and 171% funded in 2018 so why did the costs increase ? United Airlines Technicians do not bear the cost to the administrator, fund

or maintain the CARP pension plan. CARP Pension administration costs are not the responsibility of United Technician. The CARP Pension, 401k and Profit sharing are all ERISA plans the union and the company refusal to provide United Technician employees information on these plans is a violation of ERISA laws.

Delta Technicians Pay and Profit sharing for 2020 is equivalent to 61.00 and hour. American Airlines Pay and Profit Sharing is equivalent to 57.00 the average is 59.00 plus 2 % which is at least 60.00 an hour. Delta Airlines Profit Sharing 16.7 % or 8.50 an hour.

The Union and Company now state this information is proprietary information and not even Teamster Officials know the calculation , only United Executives and Cheiron Actuaries .

Cheiron Inc was responsible for the 2018 and 2020 reset calculation. Cheiron Inc has been named in a Federal Investigation in the US District Court Southern District of New York case # 88-civ-4486 involving Senior Teamster

union officials and rigging of VEBA healthcare bids. Some of these union Officers and Representatives were involved in the United Technicians Negotiations.

I do not consent to the Union modifying or changing the this grievance. I do not consent to allow the union to settle this grievance without my knowledge or consent which is a violation of my individual rights under the Railway Labor Act.

Remedy sought, provide calculation. The contract is between United employees and United Airlines not the Teamsters union.

Jim,

To answer the question about reinstating the grievances, your grievance (reference grievance # below) is at Step 2 after an internal review of our process here at SFO. The Company is not involved.

So, to make sure we have a clear understanding, do you concur with the decision to move your grievances (reference grievance # below) to Step 2 or do you object ?

Regards

Greg

Greg I received an email last week from Johnson that all the grievances that were closed out by the union are now open and going to the second step.

Could you please explain to me what part of the grievance procedure in the CBA was followed and who on the company side was involved in this process.

Why did the committee kill the grievances and then decided to do this?

Is the company involved in this as well and who would that be?

I'll be in tomorrow morning and Thursday morning.

I would like to get some clarification on what is going on.

Thanks Jim

On Feb 3, 2021, at 10:49 AM, Jim Seitz

Greg you stated earlier that this grievance was at second step and scheduled for a hearing on the 26th.

What happened?

Why again did the grievance committee deny the grievance?

Could someone on the IBT grievance committee provide me with the hourly cost value of CARP for a United Technician for the 2020 calculation?

CARP is a ERISA covered plan so there must be some Federal Reporting requirements or reports that are filed on the plan value or cost.

I want to move this grievance to the 3rd step.

What do I need to do?

Thank you

Jim Seitz

Case 3:21-cvExFibit #8 Reset unearing Four Sticks on Proceeding I Issues

FIRST - PROCEDURAL QUESTIONS

I want to discuss the procedural actions that led us here. It is imperative because this may not even be a legitimate hearing. I am concerned you are just stalling me out to subvert my rights under the RLA, to make sure six-months goes by before I go to court. The law says if a grievance is closed / final and there is no process in the CBA to reopen it, then court is the proper place to be heard. So, with that:

1. What was the internal union process reopening these grievances?

2. Who took part in this internal process?

3. What was uncovered in this internal union process?

4. When / How was this internal Union process conducted? Was it Local or National AD?(Closeout letters issued 02/02 and then reopened on 02/04 so . . .)

Case 3:21-cvExFibit #8 Reset unearing Fordestions on Proceed of rat Issues

5. Did United participate / agree? If not, how can you reopen it because they have already provided their answer? Again, no process in CBA for this at all.

6. On what provision of the CBA are you basing these decisions?

Please explain why the past practices and customs are not considered or acknowledged related to my grievance, specifically, the fact that the "numbers" I am requesting have been provided to me in both 2016 and 2018 with elaborate detail. None of this was considered, remarked upon, or explained.

Please explain to me when and how the contract was changed to create this new grievance process you have applied to my grievance. The contract language is clear regardless of whether you are using an electronic process or a paper process. You cannot arbitrarily add or subtract language to the contract now because you do not want to comply with the process. In the four years the contract has been in place the grievance process has never been carried out in this way.

Please explain to me what the union deliberated about and based its decision on. You have only attached what the company said. Is this part of the new process also? The union adopts the company position without any deliberation? Did the union even counter the company position at all with the fact that these numbers are given to the members and must be given to the

Case 3:21-cvExFibit #8 Reset unearing Four Barbar on Proceed of rat Issues

members to ensure the contract is being followed? This is not unreasonable. Essentially, what you are saying is the same as the company just giving me a pay check but refusing to give me the paycheck stub with the information as to the hours worked, the rate of pay, and any deductions to justify why they are paying me what they are paying me. I have a right to know what they based the reset adjustment on in order to verify that the company has complied with the contract.

Thanks Greg the deadline to appeal to SBA is fast approaching, is the union going to move both grievances forward? Have you filed the appeal yet?

If not instruct the company I want to move my grievances forward on my own without the union.

Thanks Jim

Greg just checking in on my grievances I plan on moving these grievances forward and I wanted to talk to you about the RIF grievance

Case 3:21-cv-05346-AGT Document 8 Filed 08/30/21 Page 69 of 74 Exhibit # 9 2021-3-22 Email to IBT Greg Sullivan Status of Grievance I sent in a list of the 104s who were held in SFOOV and I didn't see that sent to the company I sent another file an example of the list we want that shows where everyone bumped and who they bumped that was a 2008 IBT furlough.

Anyway the force majeur clause doesn't apply to bid area elimination and it looks like the company used the RIF to restructure SFO

I'll be back at work Sunday night if you want to meet and discuss these grievances

Thanks Jim

Jim,

I have attached the Close Out Letters for your review.

The decision by the Union to close out these grievances is final. Article 19.B.6 does not provide an avenue for you to move the grievances forward on your own.

Best Regards

Greg

Re: Freedom of Information Act Request FOIA File No. F-1784

Dear

This is in response to your correspondence dated April 19, 2021, filed pursuant to the Freedom of Information Act (FOIA), in which you request the following document:

"[A] copy of the economic Industry Reset Model contained in Letter of Agreement #29, which is part of the 2016-2022 collective bargaining agreement entered into between United Airlines, Inc. and the Technicians and other related employees, ratified on or about December 5, 2016, also known as the Joint Collective Bargaining Agreement Between United Airlines, Inc. and the Airline Technicians and Related Employees and Flight Simulator Technicians and Related Employees in the Service of United Airlines as Represented by the International Brotherhood of Teamsters, be provided."

Your request was received on April 19, 2021, and assigned as NMB FOIA File Number F-1784.

There agency is not in possession of the document you are seeking.

You may contact our FOIA Public Liaison, John S.F. Gross at 202-692-5067 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the NARA to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741- 5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Case 3:21-cv-05346-AGT Documents transformed North Case 3:21-cv-05346-AGT Documents transformed and the second sec

If you are not satisfied with the response to this request, you may administratively appeal this decision by writing to Kyle Fortson, Chairman, National Mediation Board, 1301 K Street, NW, Suite 250 E, Washington, DC 20005 or legal@nmb.gov. Your appeal must be postmarked or electronically transmitted within 90 days of the date of the response to your request.

Sincerely,

Mmin-Kit Dowly

2021-986-SFO-UA-2 Second Step Grievance Meeting

On March 4th a second step grievance meeting was held to review James Seltz second step grievance 2021-986-SFO-UA-2. He had filed a first step grievance on December 29, 2020 claiming that United and the IBT have not provided the industry reset calculation information to him, the grievance was denied.

The Grievant position:

The grievant position is that the numbers used to calculate the industry reset and the details of the "Cost Model" need to be provided to him, the industry reset pay rates are not correct and LOA 29 was not followed.

The Company position:

As made clear in the letter Hansen/Graziano letter the Company and the IBT International agreed to the results of the reset Cost Model calculations in accordance with LOA 29. Additionally, there is no language in the agreement requiring the Company or the IBT to provide the details of the Cost Model.

Decision:

The industry reset was conducted in accordance with LOA 29, the Company and IBT International agreed to and confirmed the results as was expressed in the

Exhibit #12 No Obligation to show Cost Model to Employees

Hansen/Graziano letter. There is no contractual obligation to provide the details of the Cost Model.

The second step grievance is respectfully denied.

Regards
